EDITORIAL NOTES.

The new fee bill established by the last Legislature applies to the fees of the Clerk of the Supreme Court, all county and township officers and to Notaries Public. Under the Salary-law, the reduction does not affect the present county officers, but their successors, who will act under the fee system, will not become suddenly rich unless there is a material increase in the business of their respective offices.

Wheat in California that two weeks ago stood six inches has now attained a height of 18 inches, and in some fields it has begun to head. The Sacramento Bee says farmers all feel happy, and if there should be no more north winds than the crops will be large. Equally encouraging news comes from the central and southern counties.

A contemporary says the great improvements in saw mills and machinery within the past few years give facilities for economizing in the production of timber, which people 20 or 30 years ago did not possess—not even in their dreams—and which makes an incalculable difference in the amount of material and labor saved.

Orange county, N. Y., is a land flowing with milk if not honey. The farmers who are on a strike against the dealers in New York bring their milk to the station at Goshen, as usual, and on finding that the dealers in the city are still relentless, turn their milk, to the extent of thousands of gallons daily, into the gutters.

And now the waiters of San Francisco propose to strike for a large per diem during the stay of the Knights Templar in San Francisco next Summer, says the Record Union. At this rate the Knights will have to pawn their knightly armor to get safely out of the clutches of San Francisco.

Somebody at Marysville, Cal., is already predicting a hot Summer. His theory is that the Winters of light snowfall on the mountains are followed by Summers of excessive heat, and that a heavy snowfall insures a comparatively cool Summer.

The Gridley Herald, published in Butte county, Cal., says that in two days last week a firm in that place received orders for 50,000 grain sacks to be used the coming harvest. The same firm expects to sell 100,000 within the next two weeks.

Among the good Acts passed by the last Legislature was the one compelling County Clerks to administer the necessary oaths and attach their certificates to all bills against the county, without making any charges therefor.

John J. Valentine, General Superintendent of Wells, Fargo & Co.'s Express, has issued fresh instructions to agents to guard carefully against any infringement of the law as to the weight of letters.

The Asylum job seems to have aroused the indignation of the whole Pacific coast press. Not a journal has been able to cite a single mitigating circumstance.

During nine months \$105,000,000 of dry goods were imported into the United States. The increased number of bankrupt husbands last year is now fully accounted for.

Freights are now delivered in San Francisco within fifteen days from New York by the Southern Pacific Railroad and the New Orleans steamers.

The American Brake Company stopped a 228-ton train, going at a speed of 25 to 30 miles an hour, on a level grade in forty seconds, or 225 yards.

It is reported that the President is at loggerheads with Senator Jones and Roscoe Conkling.

Rev. B. F. Coker, author of numerous works on moral science, died of nervous prostration last evening at Ann Arbor University.

EASTERN DISPATCHES.

[ASSOCIATED PRESS.]
Order from the Assistant Postmaster-General.

WASHINGTON, April 9.

The following general order was issued to-day by the Postoffice Department: Order 1 that Order No. 460, January 12, 1883, is hereby revoked. Section 371 of the postal laws, regulations of 1879, is amended so as to read as follows: Postal cards and pre-paid letters to be forwarded, if requested. Pre-paid letters to be forwarded from one postoffice to another, at the request of the party addressed, without additional charge for postage. All letters upon which one full rate of postage has been prepaid, and all postal cards, shall be forwarded from the office to which they are addressed to any other office, at the request of the person addressed, or of the party whose card may be upon the envelope, or whose name may be signed to the card, without additional charge for postage. Such forwarding must be continued until the party addressed is reached.

An Arkansas Breeze that Distributes Death and Destruction.

HOT SPRINGS, April 9.

A terrible cyclone swept the country south and east last night. Scarcely a tree is left, and farm houses, fences and bridges were demolished. Reports of the late hurricane show great damage, and considerable loss of life. John Neusch and wife 15 miles south of the river, were killed by falling timber. Mr. Johnson's ferry Thomas Wilson was killed by his horse falling on him. The destruction of houses and the scattering of fences was complete along the storm's track. Much property was destroyed between Ciling and Machita river, east of Hot Springs.

Squandering the Old Man's Money.

NEW YORK, April 10.

Washington and Henry Tobias, two brothers, aged 30 and 25, are defaulters to the extent of \$50,000. The money belonged to their late father's estate. They speculated some, but said the money was principally spent in fast living. It is thought they may be in Europe.

Wallstreet was thrown into a state of great excitement over the report that an operator in stocks had defaulted to a very large amount. The report was that Tobias had appropriated \$10,000 of the trust funds of his family, besides a large amount of property in his charge.

The Boxing Epidemic.

NEW YORK, April 10.

There was a large crowd last evening at American Institute at a sparing engagement, in which Charlie Mitchell and Mike Cleary of Philadelphia took part. It was thought

It is stated that Norman has been acting for some time in the service of the police. The police suspect he is ordered to cruise in the vicinity of Woolwich Arsenal day and night. A peculiar key, found on Whitehead, of American make, is believed to belong to some magazine.

The Times, in an editorial article, expressed the belief that the prisoners arrested on Thursday had arranged a plot to place nitro-glycerine in various parts of London and to explode them simultaneously.

A Destructive Prairie Fire.

LINCOLN, Neb., April 10.

The most disastrous prairie fire that ever occurred in this section was raging yesterday. A few miles north of the city Mrs. Dalton, a farmer's wife, was suffocated while fighting the fire. Many other smaller accidents are reported. Barns, houses, granaries and haystacks were licked up by the flames. It is estimated that 50 square miles were burned over. The flames lit up the heavens for miles around. The fire is reported still raging.

An Frazier Skips Out.

HOT SPRINGS, Ark., April 10.

The Chief of Police has ordered the arrest of Coy, chief member of the suspended banking firm of Coy & Co., on a charge of embezzling trust funds. Coy suddenly left, recently saying he was going to New York. It is believed he has gone for good.

Brakeman on a Strike.

HOT SPRINGS, Ark., April 10.

Brakemen on the Iron Mountain Railroad struck to-day because of a reduction in the number of men to a train, and frustrated all efforts to move trains by pulling out coupling pins, etc. Several arrests were made.

Indian Poisoners.

SALT LAKE, April 10.

Last Saturday at Knab two Indians were arrested for poisoning a settler. They entered a cabin during his absence and placed poison in his flour, which caused his death.

The Mormon Wrestling for the Lord.

SALT LAKE, April 9.

The missionaries appointed at the Mormon conference which adjourned yesterday will take up their line of march to-morrow. They number 194 and their destination is the southern and western States, Europe, Australia, Mexico and the Sandwich Islands.

Death of a Pioneer.

SAN FRANCISCO, April 9.

Henry Brickwedel, ex-City Auditor, and a pioneer merchant, died to-day of pneumonia.

FOREIGN TELEGRAPH.

[ASSOCIATED PRESS.]
The Dynamite in Ireland.

LONDON, April 9.

Tracy Gold, an American lawyer, applied at the Bow street Police Court for permission to see Gallagher. The magistrate on duty referred Gold to the Visiting Justice, Bernard Gallagher is a member by trade, and is in custody at Glasgow.

A person residing close to Millbank prison has received a letter threatening to blow up two large gasometers near the prison with dynamite. Two large jars of nitro-glycerine reached Cork from Glasgow, addressed to O'Herlihy. The police discovered a quantity of explosives freshly buried in a field at Kilmac, near Cork. Two carbons of nitro-glycerine have been lying at the Clyde Shipping Co.'s slip in London since the 4th instant. They are consigned by a Glasgow company to O'Herlihy. This is the sixth consignment within six months from the same firm to O'Herlihy. The former consignments were all removed by Deasy. The explosives seized in Whitchurch's manufacture at Birmingham were removed to a sewage farm at Salathy with extraordinary caution and destroyed. It is believed seventy or eighty persons are at present concerned in the dynamite conspiracy. The principal is leader among three recently arrested. The police believe they have secured nearly all the consignments of nitro-glycerine now in London.

In response to letters denouncing the dynamite outrages, A. M. Sullivan, late member for Meath, said that he had letters warning him from O'Donovan Rossa not to be careful about his future utterances.

Ansburg, arrested Sunday morning, arrived from New York a fortnight ago. The police have been watching him. Millbank prison is guarded by soldiers. It is believed Ansburg is not a true name. There is reason to believe Gallagher had a military training.

Man Drowned.

SAN FRANCISCO, April 10.

J. F. McDonald, mate of the Pacific Mail Co.'s tug, William Griffith, fell from the mail dock last night and was drowned.

A Brown Fireman.

PORTLAND, April 9.

E. J. Northrup, head of the wholesale firm of E. J. Northrup & Co., fell through the dock near Salmon street, fracturing his skull, and dying soon after.

Indians to Fight Indians.

TUCSON, April 9.

General Crook has gone to Mexico to meet General Topeda. The Tombstone people have secured 100 Papago Indians to go on the warpath against the Apaches.

Man Drowned.

SAN FRANCISCO, April 10.

This morning M. P. Donegan, a railroad fireman, fell or jumped overboard from the steamer Ordway at Alberia and was drowned.

Alta Assessment.

SAN FRANCISCO, April 10.

Alta is assessed 25 cents per share.

Condensed Dispatches From All Over the World.

LONDON, April 9.

A wrestling match has been arranged for Boston in May. The first prize is the champion trophy and \$1,000 cash.

The Raymond excursion party, consisting of 150 Bostonians, left Chicago yesterday, via Rock Island, for San Francisco.

Bismarck has written to the Prussian Ministry asking an expression of their opinion as to the regard to the revival of the State Council.

The Dublin authorities have information that there are in that city 2,000 Fenians who have no connection with the inner circle.

A. M. Sullivan, who received a warning from O'Donovan Rossa, writes that he does not attach much importance to Rossa's threats.

Washington and Henry Tobias, two brothers, aged 30 and 25, are defaulters to the extent of \$50,000—trust funds. The money belonged to their late father. Fast living.

Rev. Charles Steck, pastor of the Messianic Evangelical Lutheran Church of Pittsburgh, Pa., has in contemplation the vacation of the pulpit for the summer. He will probably make his first appearance here some time in May. Steck is said to possess considerable histrionic ability.

Reno Evening Gazette

Tuesday April 10, 1883.

MARRIED.

BELMONT-MITCHELL.—In the parlors of the Golden Eagle Hotel, Reno, April 8th, by Justice Young, Frank Belmont to Miss Louise Mitchell, both of Verdi.

NOTICES.

Minor Occurrences in and About Town.

Teams for the north are pulling out every day.

Steamboat Springs will be hotter than — in a few days.

There are good signs of a storm, but they may fall to ripen.

Gallatin & F. Leon received two car-loads of goods yesterday.

Phil. Bates has a caution notice in another column. Read it.

Autograph albums at Neely's. Thermometers at 7, 9, 11, 1 and 3-44, 58, 66, 88, 97.

Six car-loads of railroad iron went south this morning for the Carson & Colorado road.

A number of second-class sleepers are being taken East to accommodate immigrants.

Corn in considerable quantities is going through Reno to San Francisco, from Nebraska.

Comfortable lots of bullion from Paradise, Tuscarora, Belleville and Bodie are being sent to San Francisco.

Manager John Piper has engaged the Nevada Theater for two nights of the last week in this month—the 25th and 26th.

Constable Nash, with officers Mershon and Green, are doing good work, much to the disgust of tramps who center here.

A number of men were engaged here yesterday to work on a mine at White Rock, Nye county. They left this morning.

It is probable that before long there will be a continuous line of stages from Reno to Lakeview, Or., under one management.

Speaking of railroads, a road is remarked that they are now built of three gauges, viz: Broad gauge, narrow gauge and mortgage.

Laborers are plentiful except when they are wanted. Squads of them can be seen on the street, but say "work" and they scatter like scared cats.

Dr. Leonard, the dentist, has got up a fine four-seated, covered vehicle, in which he and family will travel this season in the practice of his profession.

The Golden Eagle Hotel is getting to be a famous place for weddings, a fine parlor, good piano, etc., and Judge Young ties the knot quickly and neatly.

It is reported that a portion of the cavalry now at Fort Bidwell has been ordered to Walla Walla; but the report is not confirmed by the officers at the fort.

There were spots of snow on the Summit last night, and early this morning the weather was so threatening that many expected to see snow in Reno before breakfast.

The Truckee more than holds it own. In fact, it seems to be rising a little. The water is clearer than for some time past, and fishermen say trout will soon get ravenous again.

Yesterday 59 recruits for the First Cavalry, stationed at Washington Territory, passed west. They were from St. Louis barracks and were commanded by Lieut. F. H. Hardee.

Twenty-five hundred head of fine stock sheep, mostly ewes, belonging to Hall and leased to Lane, passed through town last evening en route to the shearing grounds at P. J. Kelley's ranch.

Chamberlain has thoroughly overhauled the fountain in his pretty little park and put it in condition to squirt all Summer. The basin has been repaired and cleaned out, so that the trout will have clear water to swim in.

Trial Jurors Summoned for the Current Term.

Sheriff Emmitt has subpoenaed the following persons to appear and act as trial jurors on the 16th at this term of Court: Chas. Sherburne, John Sunderland, O. C. Ross, Geo. Jamison, W. F. Oakes, Joseph Frey, C. J. Campbell, H. M. Jameson, G. G. Tomamichell, J. P. Winfrey, A. C. McFarlan, A. Jose, R. D. Sides, J. E. Stanaway, B. A. Cooper, I. P. Johnson, Wm. Jackman, J. F. Myers, Peter Gilson, W. E. Lemon, W. L. Coffin, Morris Ash, L. Dean, Ross Lewers, Geo. S. Smith, Reuben Geise, Gee, Alt, L. J. Flint, W. M. Anderson, S. J. Bryant.

Delegates Elected.

At a meeting of Eureka Lodge, No. 22, I. O. O. F., the following named gentlemen were elected as delegates to the Grand Lodge of Odd Fellows which meets at Reno June 10th, viz: R. Sadler, A. D. Rock, C. L. Broy, J. B. Beard, Wm. Doolin, George W. Douglas, C. Farraris, W. H. Davenport, Joe Davidson and J. Creaser.

Beef Scarce in Idaho.

The Bellevue Chronicle says that Frank Blackinger has traveled 700 miles in the last twenty days to supply his shop in Wood River, without being able to buy a single beef. He found a lot of poor cattle on Raft river, not fit for beef, for which the owner asked \$70 per head.

A DANGEROUS ANIMAL.

Senator P. N. Marker Seriously Gored by a Mad Bull.

Yesterday afternoon Senator Marker was attacked by a bull at Washoe City, his place of residence. He endeavored to keep the animal at bay with a pitchfork, unsuccessfully. There was no escape, as no shelter was at hand, and all he could do was to face the music. The pitchfork was but a reed in warding off the charge of the infuriated bull, and the brute soon had Marker on his horns. He tossed the unfortunate man and then butted him so he lay upon the ground, breaking his left arm in two places, injuring him, it is supposed, internally. Dr. Bergman was immediately summoned from here, and Dr. Bronson from Virginia, who at once went to the assistance of the injured man. They found his left arm broken—the bone splintered—above the elbow, and again broken at the wrist, the bone protruding through the flesh, besides many contusions on various parts of the body; but they hope that no fatal result will follow, though they confess it is a serious case. The bull, a few weeks ago, gored a Chinaman to death, and has several times injured persons. It is a fine stock animal, and very valuable, but it seems to be so vicious that its pedigree should have no weight when the question of killing it is concerned. It ought to be slaughtered at once.

PERSONALS.

Brief Mention of the Movements of Notables and Others.

Congressman Cassidy will leave for Nevada to-day.

P. B. Comstock has struck into a good business at B. C. A.

H. M. Frost is foreman of the Grand Jury now in session.

James G. Fair, Jr., is rusticating at the Paso Robles Springs.

Wm. B. Todhunter came in from his eastern range last evening.

J. C. Hampton, the Comstock merchant, came down last night.

Arthur Beebe of "Camp 23" is spending a few days in our river-side town.

Mrs. J. F. Laycock, having spent a few weeks visiting in California, came home to-day.

James Brun came in from Long Valley yesterday and registered at the Golden Eagle.

Harry V. Blasdell, nephew of our ex-Governor, was recently married to Miss Pauline Hudson at Ogden.

Dr. Dawson went below last night, taking his little daughter Lena with him to have her eyes tested.

Lieutenant Alstin, with his brother who arrived from the East last night, left for Fort Bidwell this morning.

A. W. Maxwell and James McNamara left for the Bay last night. The latter is an invalid and seeks a change of climate.

Congressman Cassidy has given the appointment of the West Point cadetship to a son of General P. Edward Connor of Eureka.

Lieutenant-Governor, Adjutant-General and State Librarian Laughton is amusing himself on the other side of the mountains.

Invitations were extended to a few Reno people to attend to-day at Susanville the wedding of Mrs. Anna Ward, an estimable lady of that place.

Potatoes to California.

Nevada potatoes seem to be in great demand in California. Time was when it was said that the Bodega tuber was the finest in the world; but notwithstanding California produces a much larger quantity of potatoes than this State, she calls upon Nevada when she wants first-class spuds.

Unsightly Ruins.

A couple of gentlemen walking along the depot platform this morning got a sight of the charred wreck of the Coats Tavern, and one of them remarked, "That don't speak well for a town like this." That's a fact. The ruins are unsightly and should either be torn down or rebuilt.

Another Moving Town.

Senator Marker is moving several houses from Washoe City to his ranch at Lovelock's. Captain Cook has just finished tearing them down, and yesterday went to Lovelock's to set them up.

A Fancy Cosmetic.

The Piute Indian maidens use the black dope which drops out of the axle boxes of the cars to tattoo themselves with, instead of India ink. It makes a strong color and wears well.

Good Enough.

Several years ago a Reno man had 700 head of sheep, but owed \$1,000. To-day he is the owner of 7000 head of fine sheep and has money ahead besides.

Reducing Expenses.

The Central Pacific is squeezing wages among employees in Nevada. Several agents have recently been reduced five dollars a month.

TO THE LADIES

Of Reno and vicinity: Having opened a MILLINERY ROOM

ON VIRGINIA STREET, RENO, I shall be pleased to have you call and examine my stock, which I will sell at low prices, hoping thereby to secure your patronage. Very Respectfully,

A. MOTLEY.

Orders for making and repairing will be promptly attended to.

A LIVELY RIDE.

A Railroad King Who Pays for Riding Fast.

From all accounts Henry Villard got a pretty fine whirl over the desert the other day. Nick Cole took hold of him with the 219 at Winnemucca and dashed him down to the Humboldt House, 40 miles, in 45 minutes. He ran from Rye Patch to Lovelock, 23 miles, in 24 minutes, and from Bruno to Bocca, five miles, in six minutes. He averaged 47 miles an hour, making the best time on record over that division, beating the famous Jarrett & Palmer train 10 minutes. Below Sacramento, Hank Small took them 13 miles in 11 minutes. The train made 35 miles an hour over the Salt Lake division and 38 over the Humboldt. Mr. Villard gave every engineer that hauled the train and every conductor \$10, and the brakemen and firemen \$5, so that each change cost him \$35. As he had five sets of men on the Central Pacific and four on the Union Pacific it cost a little something to be so generous. He probably had 15 sets of men between New York and San Francisco.

PLUMAS ITEMS.

News Called from the Columbus & Our Quincy Exchange.

"The Chinese must go," is the battle-cry of Quincy these days.

Snow on the highest ridges fell during the late storm to the depth of from three to five feet.

Roads between Quincy and Reno are almost impassable for heavy teams on account of the mud. The warm weather will soon put them in good order again.

On Monday Judge Clough rendered his decision in the famous water case between the estates of Blood and Taylor, in Indian valley, the decision being in favor of the Taylor estate. The case was an important one, and has been in Court for some time.

Humanity to Animals.

A decision was rendered recently by Judge Nelson, of the United States District Court for the District of Massachusetts, strongly affirming the constitutionality of the Act of Congress which prohibits the confining of cattle, sheep and swine in railroad cars for more than 28 consecutive hours without unloading for food, water and rest, unless ample provisions are made for furnishing the same within the cars by any railroad company whose line forms any part of a line for conveying animals from one State to another. The action was brought by the American Humane Society against the Boston & Albany Railroad Company and the Fitchburg Railroad Company.

The Plute Princess Dispelling Eastern Ignorance.

Natchez, the Plute Crown Prince, has received a letter from one of his sisters, who is married to a white man and lives in Montana, saying the Silver State, informing him that the Princess Sallie has left that Territory and gone east to lecture. Sallie's Indian name is Sa-mi-tau-nee, which means "White Shell." She married a white man, her third venture with a pale face husband, over a year ago, and they have lived in Montana all winter.

Potatoes to California.

Nevada potatoes seem to be in great demand in California. Time was when it was said that the Bodega tuber was the finest in the world; but notwithstanding California produces a much larger quantity of potatoes than this State, she calls upon Nevada when she wants first-class spuds.

This Powder never varies.

A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.
